PROJECTS

ZeroSlip

<https://zeroslip.co>

Powering the next generation of retail engagement, ZeroSlip personalises every touchpoint with Smart Receipts, AI CRM, Centralised Feedback, Online/Offline Rewards, and Marketing Campaigns

RewardBee

<https://rewardbee.co/>

RewardBee is an AI-powered smart rewards platform integrated with ZeroSlip's Smart Receipts. It personalizes rewards based on customer activity, enhances retention, and provides merchants with deep insights through a data-driven dashboard.

Checkeden

<https://checkeden.com>

Checkeden is a web-based application that help users to easily organize and manage all of business's technical processes. It is my side project and I spend my weekend building it.

Technology used

- React.js
- Node.js
- MongoDB
- GraphQL
- Next.js
- Ant design

Emerge Forward

<https://emergeforward.com>

Emerge is the movement for promoting a society where everyone is encouraged to observe, reflect and act in order to come to right conclusions.

SocialFlows

<https://www.socialflows.io>

SocialFlows is an innovative applicant management system, specially developed for social recruiting. It offers you numerous functions to make the recruiting process efficient and effective, giving you more time for strategic decisions.

Wix and Shopify plugins

Create a number of Shopify and Wix plugin to perform different tasks. Using frameworks like Next.js, Nest.js and React.js for frontend scripting
